Reactivation fee	Fee for patient not seen >12 months but < 36 months***	\$65
Late payment	Late payment fee > 30 days from visit	15%
No-Show Fee	No call, no show to appointment	Cost of visit (full cost)
Late cancellation	Cancellation <24 hours notice, rescheduled within 3 business days	\$75
Late cancellation	Cancellation <24 hours notice, rescheduled after 3 business days, or no reschedule	\$225

Please note:

- **If you have insurance with which we are out-of-network, payment will be due the day of service. Should you wish to have us submit the visit to your insurance company, we will be happy to do this. Any reimbursement provided by insurance will be sent directly to you by the company. If you are uninsured, payment is also due at the time of service.**

- Fee schedules are the same for both in-person and telehealth visits.
- Patients are responsible for the cost of non-covered services.
- Due to the number of outstanding accounts at this time, we are unable to schedule appointments for patients with a back-balance until your balance is paid.
- It is unlawful for our practice to waive copays, deductibles and coinsurance. If you have questions about your responsibilities with your policy, we recommend calling your insurance ahead of your visits to clarify. We are unable to adjust invoices once you've had your visit.
- Any fees prior to 7/1/23 will be billed according to our current fee schedule, which is noted in patient consent forms.
- As of 7/1/23, all patients will have to sign consents PRIOR to their visit and have a card on file to be billed or visits will be rescheduled.
- For patients with policies other than our in-network insurances, billing will be completed the day of service using the card on file unless you ask us to bill your insurance.
- We reserve the right to bill for every service we provide. As new service codes are approved by the AMA/Coding associations, we will modify our billing and codes accordingly.
- For patients with Medicare, please see our Medicare policies.
